Eriez® Flotation Division Increases its Commitment to Technical Training and Information Sharing; Participates in Mexico's International Forum of Education and Training in the Mining Industry (FICEMIN)

Delta, BC—[Eriez® Flotation Division \(EFD\)](#) served as a major participant and supporter at the [2017 International Forum of Education and Training in the Mining Industry](#) (Forum Internacional de Capacitacion y Educacion Minera -FICEMIN), which took place this June in Zacatecas, Mexico. The purpose of this forum was to train mining professionals, share best practices in the industry and introduce innovative new technology.

As a leading supplier of proprietary process equipment and new technology such as [HydroFloat™ Separators](#) for coarse particle flotation, [StackCell®](#) for accelerated flotation and [FeedAirJet™](#) for pre-aeration, Eriez is committed to supporting technical training and information sharing in the mining industry through participation in events such as [FICEMIN](#). Oscar Lopez, a seasoned metallurgical expert in the Mexican mining community, represented Eriez at this year's FICEMIN.

In addition to Eriez Flotation Division, other top mining companies participating in [FICEMIN](#) included First Majestic, Penoles, Fresnillo PLC, Saucito, Sonora Naturals, Mina El Cubo and MIMESA, as well as Universities of IPN and Tec Laguna.

For more information on the Eriez Flotation Division, including Spanish language technical papers, please visit www.eriezflotation.com.

About EFD

Eriez Flotation Division (EFD) is a world leader in advanced flotation technology. Formerly known as Canadian Process Technologies, Inc., EFD is a wholly owned subsidiary of Eriez Manufacturing Co. EFD provides advanced testing and engineering services, in addition to sparging and column flotation equipment for the mining and mineral processing industries. For more information, visit www.eriezflotation.com or call toll-free at 888-300-3743 within the U.S. and Canada. We can also be contacted at efdusa@eriez.com.
