Magnetic, Vibratory and Metal Detection Solutions for Industry

NEWS RELEASE

For Immediate Release

PRESCRIPTION FOR “E-Z” METAL DETECTION

Eriez' new highly sensitive [E-Z Tec® Pharmaceutical Metal Detector](#) improves process purity through detection of minute metal contaminants during the production of any capsule or tablet-based product. The unit's advanced electronic design simplifies setup, ensures reliable operation, provides instantaneous recovery from phase adjustments and requires minimal operator training. E-Z Tec Pharmaceuticals are designed to fit most any production line configuration.

E-Z Tec simplifies setup and operation. A new 5-minute *QuickStart* feature allows users to pass sample product, test and begin production in less than five minutes. By fixing the downslope of the unit's polished stainless steel head at 30 degrees lengthy timing adjustments of downstream reject equipment are eliminated, while the easy-clean chute reduces cross-contamination during product changes.

E-Z Tec Pharmaceutical Metal Detectors feature an industry leading life-time warranty on the coil construction and can be configured with a wide array of reject devices, alarms and relays.
