Eriez' Suspended Electromagnets Carry 5-Year Warranty/5-Week Delivery

Erie, PA – Eriez Magnetics' 5 & 5 program boasts a 5-year coil warranty and 5-week delivery on its popular self-cleaning [SE7000 series Suspended Electromagnets](#) ensuring the best delivery and warranty in the industry.

The 5&5 Program

**5 Year Coil Warranty
& 5 Week Delivery**

Eriez' 23 different sizes and 69 standard models range from manual to continuous self-cleaning units along with hundreds of special designs. Five suspended magnets are stocked in [EriezXpress](#) for next day shipment. Suspended magnets efficiently remove damaging tramp metal contamination from product flows protecting process equipment and improving product purity.

Eriez' [SE7000 series Suspended Electromagnets](#) feature precision wound electromagnetic assemblies built with limited wiring crossovers, non-metallic fiberglass spacers, Nomex® insulation and glastic material in the coil to ensure long-term, trouble-free performance. The interior of the magnet's steel plate housing is sandblasted and sealed eliminating scale that may contaminate the oil coolant leading to possible shorts. All Eriez SE's incorporate an exclusive oil expansion tank to prevent condensation and protect against hot spots thus extending coil life. Magnet options include dust enclosures, explosion-proof motors, special belts; speed switches, suspension gear and controls for every environment.

To receive ERIEZ' Suspended Electromagnetic brochure SB-323, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada, or [click here](#) and complete the **More Information** link.
