

PRESS RELEASE

September 2018

Economic Metal Recovery Solutions at Ecomondo 2018

At Ecomondo 2018, Eriez Europe will be showcasing the RevX-E ST22 Eddy Current Separator for improved and efficient metal removal on Stand 040 in hall A2.

Eriez' extensive range of recycling equipment, which recovers, Eddy Current Separators (ECS), Overband Magnets, Metal Separators and Magnetic Drums, allows for the consistent recovery of valuable metals helping waste material processors increase their profits.

Visitors at Ecomondo 2018 are invited to stand 040 to see a live demonstration of the RevX-E ST22 Eddy Current Separator separating non-ferrous metal particles as small as 2mm in size, and the newly-designed Suspended Overband Magnet.

Eriez' Eddy Current Separator modules have become a key product in the company's range of recycling equipment over the last few years, providing an economic and efficient solution for all metals recovery. The separation performance that the modules offer has been well received by customers, some recovering the capital equipment cost in a matter of months.

In addition, Eriez will be demonstrating the newly-designed Suspended Overband Magnet, which is lighter than the standard suspended magnet, yet offers comparable performance in achieving the highest levels of metal separation. The slimline, compact design features an internal frame simplifying the belt change process and is ideal for mobile crushers, shredders or screeners.

Sales Director, Gareth Meese comments, "2018 marks Eriez second consecutive year exhibiting at Ecomondo. Our sales into the recycling industry continue to grow very strongly, which is testament to the exceptional separation efficiency of our equipment and the high levels of service support we give to our customers across Europe. Ecomondo will be a fantastic opportunity for Eriez to demonstrate 50 years of innovation and development."

The team will be on hand at Ecomondo to offer demonstrations and to answer questions visitors you may have regarding metal separation solutions.

To make an appointment with the team, contact Eriez on +44 (0) 29 2086 8501 or email info-europe@eriez.com
