

Tube Magnets

Individual tubes are used to remove ferrous contaminants from liquids in tanks, perform quality control checks of dry bulk materials, and serve various other purposes where a powerful, portable magnetic source is needed.

Available

Ceramic

Reliable essential protection from tramp metals that can damage downstream equipment.

Rare Earth

High-strength Rare Earth separators are extensively used by food, chemical and pharmaceutical processors requiring high levels of product purity.

Xtreme® Rare Earth

The ultimate in process purity combines the finest materials and construction techniques with the industry's most powerful rare earth magnetic circuits.

Features

- 316L stainless steel tubing
- Glass bead surface finish
- Industry leading strength measured by both gauss and pull test
- Continuously welded (Rare Earth)
- Rare Earth and Xtreme Rare Earth magnet circuits for temperatures up to 65.5°C (150°F)
- Available in Grate and Trap Magnet configurations

Options

- Customized lengths
- High-temperature versions
 - Up to 121.1°C (250°F)
 - Up to 204.4°C (400°F)
 - Up to 315.6°C (600°F)
- Special supports for lengths over 762 mm (30")
- M8 thread standard, other styles or combinations available upon request

Tube Magnets

Dimensions

Length		Ceramic		Rare Earth & RE7 Xtreme Rare Earth
