### **Eriez® DSC Grate Magnets Now Available through Quick Ship Program**

Erie, PA—[Eriez®](#) announces that its innovative DSC (Dust-tight, Sanitary, Convertible) [Grate-in-Housing Magnets](#) are now included in the company's [Quick Ship line of standard magnetic separators](#) which are available for immediate shipping. Eriez stocks both Manual and Automatic Easy-To-Clean DSC Grates-in-Housing in three sizes, all manufactured with the industry's most powerful [Xtreme® RE7 magnet circuit](#).

Introduced in 2017, Eriez DSC [Grate-in-Housing](#) magnetic separators have quickly captured the attention of the food industry. Product Manager Chris Ramsdell says, "Our DSC Grate-in-Housing is becoming a standard part of free-flowing granular food product processing applications, including grain, coffee and popcorn. With its dust-tight construction, the DSC easily handles fine powders better and some head velocity pressure while maintaining a positive seal."

The standard housing on the DSC is sanitary stainless steel on the interior. Eriez also provides customized options to meet customers' specific needs, including sanitary-welded tie bars.

Ramsdell explains that the convertible feature of the DSC [Grate-in-Housing](#) allows customers to purchase a more economical manual clean unit that can later be easily upgraded to an automatic cleaning unit with simple hand tools and a bolt-on conversion kit. He says, "Converting the DSC from manual to automatic clean is hassle-free and straightforward. No cutting or welding is required."

To learn more about Eriez' full line of Grate Magnets, visit <http://erieznews.com/nr479>. To download the company's Quick Ship product brochure, go to <http://erieznews.com/nr479brochure>.

Eriez is recognized as world authority in separation technologies. The company's magnetic lift and separation, metal detection, fluid recycling, flotation, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, plastics, rubber, recycling, food, mining, aggregate and textile industries. Eriez manufactures and markets these products through 12 international subsidiaries located on six continents. For more information, call (814) 835-6000. For online users, visit [www.eriez.com](http://www.eriez.com) or send email to [eriez@eriez.com](mailto:eriez@eriez.com). Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
